### JOBS AT HOME DEPOT

**Lead Cybersecurity Engineer**  
Austin, TX

The Staff Systems Engineer develops, maintains, and supports The Home Depot's technical infrastructure that includes network, hardware, database, and system software components.

**Administrative Coordinator**  
Miami, FL

The HDI Administrative Coordinator operates as an internal and external customer support expert that helps build, manage and facilitate an excellent customer experience.

**Area Supervisor**  
Westfield, MA

The DC Area Supervisor leads an hourly team and influences the entire distribution team to do the fast-paced work required to run the distribution center as efficiently, safely and productively as possible. This role will handle management responsibilities for the team members under his/her supervision.

**Asset Protection Specialist**  
Carrollton, GA

The Asset Protection Specialist is primarily responsible for preventing financial loss caused by theft and fraud and supporting safety and environmental program compliance in their assigned store/multiple stores.

**Distribution Center - Transportation Supervisor**  
Salem, OR

The Transportation Supervisor will lead an hourly team and influence the entire distribution team to complete the work required to run the distribution center in an efficient, safe and productive manner. Supervisor will be responsible for management of the team members under his/her supervision.

**District HR Manager**  
Austin, TX

The District Human Resources Manager(DHRM)plays a key role in establishing a customer service culture by driving the effective execution of HR processes. The DHRM is responsible for the planning and delivery of processes for talent management, performance management, and associate engagement for a district of 6-12 stores, with the goal of developing a workforce that achieves excellence in driving business results, customer service, and Company Values.

**Distribution Center - Operations Manager**  
Lacey, WA

The DC Operations Manager is responsible for the success of assigned functions within a complex distribution center environment to ensure that it is an outstanding place to work. The DC Operations Manager may be responsible for the supervision of one or more of the following: Inbound Operations (Unloading and Receiving), Warehouse Operations (Pick-Pack, Break-Pack), Outbound Operations (Loading), Transportation Operations (Yard, Carrier Relations) and/or Office Operations (e.g., Transportation Coordinators, Customer Service Associates, General Office Associates).

**HDDC Project Management Specialist**  
San Diego, CA

The HDDC Project Specialist will plan, estimate cost, oversee, and document all aspects of the Design projects they are working on. Projects include renovations, remodels, and design updates. The HDDC Project Manager will work closely with the Designers to make sure that the scope and direction of each project is meeting the customer's needs.

### FEATURED TRAINING PARTNERS

**Collin College - Technical Campus**

Collin College is a veteran-friendly college district which prides itself on delivering an exceptional education at an affordable cost. The college's technical campus offers workforce programs with industry-recognized certificates and two-year degree programs in Automotive/Collision Technology, Biomedical Equipment Technology, Computer-Aided Drafting/Design, Computer Networking, Construction Management/Technology (including carpentry, electrical, facilities management, plumbing, and safety), Electronic Engineering Technology, HVAC, Health Sciences, Industrial Automation, Interior Design, Welding Technology, and more. The college's Veterans Resource Centers provide students with information and assistance with financial aid, VA benefits, counseling, and more. For more information, email [technicalcampus@collin.edu](mailto:technicalcampus@collin.edu).

**Fortinet-NSE Training Institute**

The Fortinet Veterans Program focuses on helping veterans transition into the cyber-security industry. The program seeks to capitalize on the natural synergy between national defense in the Armed Services and defending critical information for businesses and government agencies. Through the Fortinet NSE Training Institute Certification Program, an eight-level certification program designed to provide interested individuals with an independent validation of their network security skills and experience, training is free. Follow [this link](#) to learn more.

**Unmudl**

[Unmudl.com](#) is a new online marketplace of community college courses that makes it easier for you to get career-ready—whether it's learning new skills, taking refresher courses, or completing a certification program. Plus, many of Unmudl's course offerings align with in-demand skills employers need today, even further streamlining your pathway to becoming a qualified job applicant. You can bypass application fees, take classes in a variety of formats, take courses from multiple schools simultaneously, and find out what courses employers want to see. Some courses are eligible for VA/Military benefits.
