

## FEATURED EMPLOYER

### ABOUT GOVERNMENT CIO

GovernmentCIO (GovCIO) has a single goal: to be the preeminent source for new ideas in government IT transformation. It continues to grow rapidly, aligning broad technology and business expertise to help federal leaders confront their most pressing challenges.

GovernmentCIO's founder focused on two key principles: delivering excellence and always putting the client's needs first. GovCIO's consulting work began at the Department of Labor and has since grown to provide an array of work across the federal space, most notably, at the Department of Veterans Affairs.

Using Agile and Human-Centered foundations, this company collaborate with customers to implement innovative and groundbreaking IT modernization, analytics, cyber-security and digital solutions, as well as experience-based strategic management and advisory support. The teams comprise industry, military and government veterans who close the gaps in process, communication, productivity and security.

\*Note: GovernmentCIO has recently acquired SalientCRGT. When applying to a GovernmentCIO jobs, you may be re-directed to the SalientCRGT careers page to complete your application. However, they are one GovernmentCIO!

As SalientCRGT continues its growth and expansion, we are looking for Business development Executives who have sold into these markets and have relationships with C-Level executives such as Chief Information Officers, Chief Technology Officers.

#### PROJECT COORDINATOR 2

JBSA Lackland AFB, TX

The ideal candidate will be responsible for programmatic support to include: Scheduling meetings and conferences, procurement of goods and services, interfacing with vendors to obtain quotes for goods and services, navigating DoD and SalientCRGT purchasing processes, assisting with the hiring/onboarding processes for new employees

#### NETWORK/SYSTEMS ADMINISTRATOR 2

JBSA Lackland AFB, TX

The Network Systems Administrator 2, SATCOM Field Service Representative (FSR) works with a team of technicians assigned to operate and maintain satellite communication terminals. The FSR will be expected to set up, configure, implement, operate, and manage day to day SATCOM terminals operations. The FSR will also troubleshoot and resolve technical problems and failures on-site as well as provide email and phone customer support. The FSR plans, evaluates, and coordinates installation and/or reconfiguration of hardware and software elements of SATCOM primary and support systems. Maintains technical expertise in all areas of Ku, Ka, and X band SATCOM operations. Additionally, the FSR may be assigned to propose solutions to optimize cost savings, considering current and future based SATCOM requirements.

#### BUSINESS ANALYST 2

Remote - Anywhere

Participate in Scrum ceremonies as part of a 8-person scrum team. Use Azure Boards to maintain epics and user stories used by the Agile software development process. Collaborate with the product owner to facilitate a close partnership with the team to ensure success. Assist with story refinement, requirements analysis/impact assessment. Work with the scrum master and project manager to plan sprints, releases, backlog grooming, demos, retrospectives etc. Support enhancements to MS Dynamics-based CRM applications.

#### CUSTOMER SUPPORT ADMINISTRATOR

Seattle, WA

Provide outstanding support to DEA users. Deliver desk-side support, regularly scheduled backups, network storage allocation, and preventative maintenance. Support Microsoft Windows environments, repair/replace system peripherals, and maintain configuration management data and documentations.

### FEATURED TRAINING PARTNERS

#### THE MISSION CONTINUES - WOMEN VETERANS LEADERSHIP PROGRAM

The Women Veterans Leadership Program (WVLP) provides leadership skills and knowledge for women veterans to build a movement so they can pursue equal opportunities for all women in leadership attainment. The program's curriculum is carefully designed to equip women with skills and knowledge to overcome systemic challenges that all women face in their rise to leadership as well as tools for overcoming those barriers research shows are unique to women veterans. WVLP members will have opportunities to engage a nationwide network of women leaders and The Mission Continues staff throughout the five months of the program and beyond. After completion of the program, graduates will gain access to a growing alumni network and be eligible for additional mentorship and leadership opportunities to help grow a veteran-led movement of service. To learn more about eligibility requirements and when the next cohort is accepting applications, please visit their [website](#).

#### NEW HORIZONS TAMPA BAY

New Horizons Tampa's Troops to Tech Careers certification training program is an exclusive in-classroom/online training program designed for veterans transitioning from their current field into the Information Technology and Cybersecurity workforce. The Troops to Tech Program was created in 2011 by veterans and for veterans with the intention of assisting them with their transition after serving in the military. This program is designed for hands-on learning so veterans can develop the skills required to be an effective employee starting day one. The program is suited for those who are new to Information Technology and those who have already spent time in the field. While attending the Troops to Tech careers certification training program, the veteran will also be working one-on-one with their Director of Career Services, and their Placement team will provide the veteran with mock interview sessions, revamping of their personal LinkedIn account, reconstruction and personalizing their resume to meet the requirements of the applicant tracking system (ATS). Click [here](#) to learn more.

#### BREWING AND DISTILLING CENTER

For veterans, the Brewing and Distilling Center (BDC) continues to provide opportunities to secure jobs and careers in the fun and rapidly-expanding beer and spirits industry. Utilizing your Post 9/11 GI Bill Educational Benefits, the BDC can expertly train you to gain entry-level positions or even start your own brewery or distillery. The BDC's Professional Brewing/Distilling Technology (PBDT) certificate program is 13 weeks long with 154 contact hours and provides classroom technical education and hands-on skill-training, like brewing, distilling, laboratory work, flavor and beer style tasting, and many other skills and experiences. In addition to traditional on-ground training, they also provide a PBDT online live streaming option. Learn more at their [website](#), by email at [info@getbdc.com](mailto:info@getbdc.com), or by phone [865-622-7511](tel:865-622-7511).
