

FEATURED EMPLOYER

ABOUT ADVANCED TECHNOLOGY SERVICES, INC.

Advanced Technology Services (ATS) specializes in outsourced industrial maintenance services and MRO asset management. ATS is the one-stop shop for all things related to factory maintenance. However, what makes this company extraordinary is the people. ATS is and always will be a people company. ATS has a long history of supporting our veterans, active duty, and military spouses through military hiring. As a company whose active and former military population makes up nearly 20% of the workforce, you'll be surrounded by a supportive community of people who have shared experiences. Together, ATS makes factories run better.

JOBS AT ATS

PROCESS IMPROVEMENT SPECIALIST (MAINTENANCE)

White, GA

Adds value to the industrial maintenance organization by continuously improving asset performance through measurement / evaluation of system deficiencies and the implementation of corrective actions. Furthermore, under minimal supervision, applies advanced predictive maintenance capabilities for internal operations at an assigned site.

MAINTENANCE TECHNICIAN - TEAM LEAD

Denver, CO

This individual will be responsible for directing and supervising the daily activities on the shop floor of a factory maintenance team. They will provide the team with leadership and total support to ensure the highest level of customer service and satisfaction.

INSIDE SALES REPRESENTATIVE

Greenville, SC

ATS is seeking a recent graduate looking to start a career in technology sales. This role has growth potential into Account Manager/Account Executive or other areas of interest. Actively engages with potential clients with a variety of prospecting tools in order to create new opportunities to sell ATS technology solutions. This role will utilize outbound selling tools and field inbound sales opportunities. They will collaborate with field sales representatives, identifying and handing off onsite service opportunities as they are identified. This resource will also have the opportunity to participate in a sales development program.

BUSINESS MANUFACTURING MANAGER

Shawnee, OK

Leads an onsite team in the delivery of high-quality, value-added production asset reliability services at a specific customer's manufacturing plant / location. Proactively drives the ATS safety and wellness culture by embracing the Beyond Zero strategy. Models the leadership behaviors that promote a positive employee experience and supports employee development. Actively engages the customer, building and sustaining positive customer relationships that foster business growth. Sustains business processes and uniformity of services through the ATS operating system. Drives business results through the effective management of financial commitments, controlling costs and developing opportunities for increased revenue.

SUPPLY CHAIN SPECIALIST

Milwaukee, WI

Responsibilities will include entering data into the inventory system on receipts, consumption, disbursement, inventory accuracy, etc. Disbursing/receiving parts to and from technicians, utilizing a forklift to complete tasks as required, assisting with the daily housekeeping of the facility, and maintaining cleanliness and organization of parts.

FIELD SERVICE MAINTENANCE TECHNICIAN - \$5K SIGN ON BONUS

Charlotte, NC

Independently installs, repairs, troubleshoots and maintains equipment such as manufacturing process equipment, robotics, automation, conveyance systems, packaging systems, and ancillary equipment within industrial manufacturing settings. Applies knowledge and aptitude of industrial electrical, electronics, mechanics, pneumatics, and hydraulics. Has knowledge of and ability to interpret various industry controls programs.

FEATURED TRAINING PARTNERS

CYBERSECURITY WORKFORCE CERTIFICATION TRAINING

Cybersecurity Workforce Certification Training offers free instructor-led online training for transitioning military service members, veterans, National Guard, and Reserve members, first responders, and other adult learners. The program offers three industry and government-recognized certifications, and students can select specialized cybersecurity pathways such as System Administration, Artificial Intelligence, or Digital forensics. Key topics include Windows and Linux computer technologies, cloud technologies, computer networks, Python programming, cybersecurity fundamentals, ethical hacking, Internet of Things hardware security, computer and mobile forensics, artificial intelligence, and machine learning. For more information, contact Steve Olson at solson10@uncc.edu or (630) 624-1819, or [click here](#).

Construction Management
Apprenticeship

HOWARD COMMUNITY COLLEGE: CONSTRUCTION MANAGEMENT APPRENTICESHIP

Howard Community College Construction Management Apprenticeship Program allows students to pursue a dynamic career path in an industry that is rapidly growing. Students complete a series of courses and lab work, coupled with 4,000 hours of paid fieldwork over a period of two years. During this time, apprentices are exposed to every facet of the construction industry. Examples include architecture and engineering, general contracting logistics, safety and regulatory guidelines, project planning, site surveying, blueprint reading and material testing. Upon completion of the program, apprentices are presented a Construction Management Certificate from HCC and are eligible to take the Certified Construction Manager-in-Training (CMIT) exam. HCC's Construction Management Apprenticeship Program is the only one of its kind in Maryland. [Click here](#) to learn more.
