JOBS AT THE NATURE CONSERVANCY

SENIOR CLOUD ENGINEER

REMOTE

The Cloud Engineer will report to the Cloud Center of Excellence (CCOE) function. The role will allow the CCOE to build and deliver a service in partnership with the rest of TNC IT. Deploying and debugging systems as well as executing new cloud initiatives will be part of the role. The Cloud Engineer will work with a variety of IT professionals and teams to ensure our cloud computing systems meet our customers' needs.

STEWARDSHIP COORDINATOR, CALIFORNIA NORTH COAST

Fort Bragg, CA | Hybrid

The Stewardship Coordinator will assist the Restoration Project Manager with some or all aspects of restoration, monitoring, and community relations for the California North Coast Restoration Project. The Coordinator furthers the Conservancy's strategic goals by performing stewardship operations to support projects to restore endangered coho salmon and other salmonids in coastal watersheds in Mendocino County, California. The Coordinator works under the direction of the Project Manager to plan, implement, and monitor projects in coastal Northern California including habitat restoration projects, fisheries monitoring programs, and stewardship of TNC-owned lands and easements.

WASHINGTON POLICY COMMUNICATIONS DIRECTOR

Seattle, WA | Hybrid

The Policy Communications Director plays a lead role in developing communication strategies and campaigns to support The Nature Conservancy's policy priorities. They will be part of the government relations team but work closely with marketing, conservation, and other teams. In addition, they will support The Nature Conservancy's conservation goals by participating in project teams, and may serve as liaison and informational contact between The Nature Conservancy and federal, state and local agencies, business and/or partner organizations.

INFORMATION TECHNOLOGY TECHNICIAN I

AZ, CO, ID, MT, NV, NM, UT, or WY

The Information Technology Technician I position assists in the maintenance, tracking, troubleshooting, and purchasing of information technology systems (including PC and LAN equipment) for TNC offices. They monitor, optimize performance and provide disaster recovery service for the information systems in the office. They'll assist staff on troubleshooting software and hardware problems including network issues and act as a point of communication between IT, primary operating business units and external vendors. They perform local operations functions as appropriate in accordance with TNC and IT standards, policies and procedures. They'll be responsible for monitoring data backups in the offices to ensure that they are completed on a regular basis.

FINANCE PRODUCT OWNER

Remote

The Finance Product Owner is responsible for coordinating and organizing the reporting, development, configuration, testing, launch, and post-implementation support of all those modules of the Enterprise Resource Planning (ERP) system, which principally enable the grants, procurement, accounts payable, accounts receivable, leases, loans, and general ledger functionalities. This position will report to the Controller and sit within The Nature Conservancy's Finance Business Unit on the PART-C team (Private Awards Center of Excellence, Accounting, Related Entities, Treasury, and Financial Compliance). The PART-C team is a resource and partner that supports TNC's mission and values to ensure appropriate regulatory and procedural compliance globally. This is a remote role that will interact with teams located around the world.

FEATURED TRAINING PARTNERS

Per Scholas - Atlanta

Per Scholas is a national organization that has been advancing economic mobility for more than 27 years. Through rigorous training, professional development, and robust employer connections, we prepare individuals traditionally underrepresented in technology for high-growth careers in the industry. We partner with leading employers to build more diverse talent pools, directly connecting our graduates to new career opportunities at businesses ranging from Fortune 500 companies to innovative startups. With campuses in 19 cities, Per Scholas has trained more than 18,000 individuals in tech skills, building bridges to careers in technology. To learn more, visit [PerScholas.org](#)

International Board of Credentialing and Continuing Education Standards (IBCCES)

IBCCES provides online position-specific training and certification for professionals around the globe. With its diverse advisory board of industry leaders and experts in the field, including individuals on the autism spectrum, we help veterans, and their dependents, gain a competitive advantage over other applicants by possessing additional training and a certification in the field of autism or other cognitive disorders. Learn more about [your options here](#) and apply the Partner Code **HEROES20** to receive 20% off your registration.
