

## FEATURED EMPLOYER

### ABOUT ITW

ITW (NYSE: ITW) is a global industrial company built around a differentiated and proprietary business model. The company's seven industry-leading segments leverage the unique ITW Business Model to drive solid growth with best-in-class margins and returns in markets where highly innovative, customer-focused solutions are required.

From state-of-the-art dishwashers, ovens and refrigerators in restaurants and hotels, to automobile components inside vehicles all over the world. The products we manufacture and the solutions we design are all around us. The buildings where we live and work are built with ITW construction and welding products, and our ITW test & measurement solutions help to ensure the quality and safety of millions of products.

ITW's dedicated colleagues around the world thrive in the company's decentralized and entrepreneurial culture. Our leaders have deep expertise in the ITW Business Model and leverage it to deliver superior performance and value to our customers.

### JOBS AT ITW

#### IT OPERATIONS DIRECTOR

Glenview, IL

In our Glenview, Illinois global headquarters, the IT Operations Director will work alongside the Corporate IT team and will own the architecture, the build, the implementation, the ongoing support of applications and supporting infrastructure, the portfolio of End User Services, as well as the corporate data center and all campus infrastructure.

#### SERVICE TECHNICIAN

Nashville, TN

Are you mechanically and electrically inclined? Do you like providing customers with quality service solutions? In this role you will work with customers to electrically/mechanically troubleshoot, diagnose, repair, and maintain a variety of commercial food equipment to include cooking, food preparation, ware washers, weigh wrap, baking and refrigeration.

#### EQUIPMENT SUPERVISOR

Lancaster, NY

In this role, you will supervise a team of individual contributors to ensure effective and efficient production. You will leverage your manufacturing experience and skills to lead talented employees. You will use your leadership abilities to contribute to driving safety, productivity, and exceptional quality. Through collaboration with cross functional teams, you will prioritize team workload and drive continuous improvement.

#### SUPPLY CHAIN ANALYST I

Lakeland, FL

The Supply Chain Analyst I will ensure the proper execution of Supply Chain guidelines and activities of the organization including, but not limited to, utilizing sound judgment, strong analytical, negotiating, and inventory control skills. In addition, the individual will support the Division Supply Chain Manager with all associated activities within the department.

#### SHIPPING & RECEIVING COORDINATOR

Doraville, GA

The shipping and receiving coordinator's role is to perform all operations of the shipping/receiving/warehousing department and purchase raw materials. This involves effective space utilization, accurate documentation and coordination with Customer Service and manufacturing personnel.

#### SERVICE MANAGER

Washington, D.C.

This position will be responsible for assisting the management and administration of general business operations for their branch. This position provides strategic leadership as well as the day to day management of a team of Field Service Technicians and lower-level supervisory staff (where applicable).

### FEATURED TRAINING PARTNERS

[mycyberpath](https://mycyberpath.com)

[mycyberpath.com](https://mycyberpath.com) provides you with the keys to a successful cybersecurity career. We match your interests and personality traits to cyber work roles and provide you a personalized cybersecurity career pathway. The pathways show you in a systematic way the certifications, experience, training, and education to pursue throughout your career. You can also search and apply for jobs on platforms where recruiters are hiring as the pathways are mapped to LinkedIn, Indeed, and ZipRecruiter. The pathways are also mapped to the NIST NICE, DCWF, O\*NET/DOL, and ECSF cybersecurity work role frameworks.

[Brewing and Distilling Center](https://www.brewinganddistillingcenter.com)

For military veterans, the [Brewing and Distilling Center \(BDC\)](https://www.brewinganddistillingcenter.com) continues to provide opportunities to secure jobs and careers in the fun and rapidly-expanding beer and spirits industry. Utilizing your Post 911/GI Bill Educational Benefits, the BDC can expertly train you to gain entry-level positions or even start your own brewery or distillery. The BDC's Professional Brewing/Distilling Technology (PBDT) certificate program has two options: 13 weeks at 12 hours weekly and 6 weeks at 28 hours weekly. Both options contain 154 contact hours and provide classroom technical education and hands-on skill-training, like brewing, distilling, laboratory work, flavor, and beer style tasting, among many other skills and experiences. Go to [www.brewinganddistillingcenter.com](https://www.brewinganddistillingcenter.com); email: [info@getbdc.com](mailto:info@getbdc.com); or call 865-622-7511 to learn more. The BDC loves to assist military veterans! Thank you for your service.

[Academy of Advanced Manufacturing](https://www.aam-manufacturing.com)

The U.S. manufacturing sector is predicted to produce nearly 3.5 million jobs over the next decade. But with more than 20% of manufacturing workers set to retire by 2025 and new technology driving evolving skills requirements, more than 2 million of those jobs could go unfilled. ManpowerGroup and Rockwell Automation have partnered to create an innovative solution, The [Academy of Advanced Manufacturing](https://www.aam-manufacturing.com), in which we train military veterans for careers in high-demand technical roles. AAM is a 12-week, expense-free intensive program, designed specifically for veterans. AAM combines technical classroom training and hands-on lab experience with professional development and soft skills training necessary to become a highly trained Automation/Instrumentation/Controls Technician.

AAM was created to help you, and other Veterans, secure a meaningful career following service to our country in a High-Tech role within the Advanced Manufacturing and Automation field. AAM takes care of your expenses during the 12 weeks of certification training including lodging, food, computer, tools, software, hardware and transportation to and from the provided lodging to the training facility. Not only do we take care of your expenses for AAM during these 12 weeks, you will also be paid a modest salary for 40 - 46 hours of training each week.
