JOBS AT SCHREIBER FOODS

FINANCE TECHNICIAN

Beloit, WI

This position is responsible for accumulating financial data to ensure accuracy and timeliness of financial and operational reporting. In this role you will work as a member of the plant FP&A team to assist in the maintenance of plant financial systems. The ideal candidate will work with the FP&A team to execute both transactional and entry level analytical tasks that promote continuous improvement at the plant.

REGIONAL RELIABILITY MANAGER

Carthage, MO

The regional reliability manager's main goal is to boost the reliability, availability, and performance of manufacturing equipment and facilities, ensuring smooth operations, increasing uptime, and boosting efficiency and profits in more than one plant within a region. They support maintenance and operations by proactively pinpointing potential failures or weaknesses and creating strategies to prevent or lessen these issues. The regional reliability engineer assures safety standards and regulatory compliance, including adherence to SQF (Safe Quality Food) requirements.

PROJECT MANAGER

Grand Rapids, MI

As a Project Manager you will lead the development and execution of capital projects as well as support plant engineering needs. You will develop and lead project teams which may include internal partners, outside engineering resources, suppliers, contractors and regulatory personnel. You will work with a variety of departments to develop business propositions and executive summaries for capital projects which drive and increase company value.

GENERAL OPERATOR

West Bend, WI

We are looking for Entry Level Machine Operators to join our team! At West Bend, we specialize in cream cheese - that meet our customers' needs and appeal to consumer tastes worldwide. Responsibilities include maintaining the machine in accordance to Food Safety guidelines; forming boxes and packaging final product; cleaning, sanitizing and maintaining equipment to company and food safe standards; operate pallet jacks; manufacture, maintain, and process bulk dairy ingredients.

CORPORATE TAX INTERN

Green Bay, WI

The Corporate Tax Intern will be an active member of the Financial Reporting and Tax Teams. The position is a year-round internship and will be located at Schreiber's Home Office in downtown Green Bay, Wisconsin. Training will be provided. This role will start this SUMMER (2025).

SUPPLY CHAIN SYSTEMS MANAGER

Green Bay, WI

The Supply Chain Systems Manager will implement, support, enhance and oversee management of Supply Chain systems and processes. To work closely with Purchasing Sourcing, IS, Finance, Quality Assurance, Planning, Distribution, Transportation, Operations, Customer Service and other cross-functional teams to enhance existing or new processes that support the growth and profitability of Schreiber Foods.

HIRE HEROES USA DIRECT PLACEMENT ROLES

SENIOR SYSTEMS ADMINISTRATOR

Quantico, VA

As a Senior Systems Administrator, the individual will be responsible for configuring, maintaining, and operating computer systems and servers. In this role, the Systems Administrator will install hardware and software and participate in research and development. In addition, the individual must work proactively to perform the duties necessary to mitigate the disruption of services, by responding to outages and promptly resolving problems.

SR. FIELD SERVICE ENGINEER

Columbus, OH

Our client is looking for an experienced service engineer with a knack for electromechanical repair within a manufacturing environment. With little or no supervision, the Service Technician performs installation, training, maintenance and repair to all equipment in a highly skilled, safe and professional manner. This position requires an employee to possess a high degree of independent judgment, with confidence in their maintenance capabilities.

SAFETY COORDINATOR

Phoenix, AZ

Our client has an exciting opportunity for a Safety Coordinator to join our team! As a Safety Coordinator, you will join forces with the Site Safety Manager to head up workplace safety initiatives for one of our production facilities. You will be on the front lines of production and immerse yourself in the daily production operations to inspire change and raise the bar on safety performance. Champion a culture of safety and care for our manufacturing team.

VOIP ENGINEER

Quantico, VA

As a VoIP Engineer, you will monitor and control the performance and status of voice and video resources across multiple enclaves and locations utilizing software and hardware tools. In this role, the Engineer will configure and install VoIP hardware/software replacements and upgrades. In addition, the individual will work to ensure all voice applicable STIGs and vulnerabilities are resolved or mitigated in a timely manner.

ELECTRICIAN

Glendale, AZ

Our client is seeking an Electrician knowledgeable in Control wiring, Calibration, Flow, Level sensors, Temperature monitoring, PLC, Reading & interpreting electrical and mechanical prints. 3 Phase power, variable speed drives, Industrial controls, be able to lift 50 pounds, Climb ladders, work at heights up to 25 feet above floor.
