

FEATURED EMPLOYER

ABOUT LEIDOS

If you're driven by a sense of service—protecting America and helping make the world a safer place—you'll find your mission at Leidos. As an industry and technology leader serving commercial and government customers, Leidos has spent more than 50 years tackling some of our nation's greatest challenges through smarter, more efficient digital and mission solutions. Operation MVP, the company's initiative to hire and support veterans and military spouses, reflects that same commitment to service.

JOBS WITH LEIDOS

SENIOR SOFTWARE DEVELOPER

Tampa, FL

We're looking for an experienced Senior Software Developer to join our growing team. The ideal candidate is a strong full-stack engineer who is comfortable working across modern front-end frameworks and .NET back-end technologies. This is a great opportunity to contribute to the architecture, design, and development of scalable, secure, and high-performing business solutions.

FIELD SERVICE TECHNICIAN I

Middletown, PA

The Security Enterprise Solutions (SES) Operation is the cornerstone of Leidos' comprehensive suite of fully-integrated security solutions for aviation, ports, borders, and critical infrastructure customers around the world. With our new, combined portfolio, our operation has more than 24,000 products deployed across 120 countries. Leveraging this portfolio, our core technical strengths, and robust R&D initiatives, we are positioned to address emerging and evolving threats through rapid development of innovative solutions for our global customers. Travel to various customer sites domestically and internationally as required.

MANUFACTURING TECHNICIAN

Webster, TX

Leidos is seeking an experienced Manufacturing Technician to support the Cargo Mission Contract (CMC) and assist in the fabrication of flight and mockup hardware for various spaceflight programs and commercial endeavors. This role involves hands-on manufacturing and technical support to ensure hardware is built to meet mission requirements, with a focus on quality and precision in a dynamic and fast-paced environment.

CHIEF SCIENTIST

Huntsville, AL

Leidos' Defense Systems Persistent Surveillance Portfolio is seeking an innovative and forward-thinking Chief Scientist to lead the advancement of next-generation sensing technologies for a major defense program. The Chief Scientist will serve as the technical visionary responsible for driving research, technology maturation, and innovation strategies that extend the program's capabilities beyond current operational baselines. This role works in close partnership with the Chief Engineer to assess technical readiness and determine when emerging technologies are ready to transition into production systems.

HIRE HEROES USA DIRECT PLACEMENT ROLES

BILINGUAL HR & PAYROLL MANAGER

Glendale, AZ

The Payroll & HR Manager is responsible for supporting accurate and timely payroll processing for all employees. This position ensures compliance with federal, state, and local regulations, and company policies. The ideal candidate is bi-lingual, has experience working in a manufacturing setting, and is familiar with the nuances of hourly, shift-based payroll, overtime, and incentive pay. The HR & Payroll Manager will work closely with finance, and 3Z departments to streamline payroll processes and improve efficiency.

SHIFT MAINTENANCE TECHNICIAN

Glendale, AZ

The 2nd shift Maintenance technician ensures the optimal functioning of all equipment, machines, and mechanical systems within the state of the art mattress manufacturing facility.

FEATURED TRAINING PARTNERS

LAWRENCEVILLE | ALPHARETTA-NORTH FULTON

Gwinnett Technical College

Gwinnett Technical College provides education that leads directly to rewarding careers.
