JOBS WITH NORTHROP GRUMMAN

PROGRAM COST & SCHEDULE CONTROL ANALYST

San Diego, CA

This Program Control Analyst position will interface with the program managers, functional management, and cost account managers (CAMs) to provide financial and administrative support and analysis to meet program requirements. Candidate will gain valuable experience and knowledge with Earned Value and performance measurement baseline concepts and be able to apply them to multiple contracts for control accounts within an engineering Integrated Product Team (IPT).

DIRECTOR ENGINEERING I

Annapolis, MD

Northrop Grumman Mission Systems is seeking an Engineering Director Level 1 to lead an engineering team to support the Marine Systems Missile Launch Programs. This person will report to the Site Engineering Director. The team is responsible for engineering development and production support of missile launcher systems for the ultimate end use in US Navy submarines and the surface ships. As Engineering Director, the position will be responsible for leading a distributed geographical, highly dynamic, growing multi-discipline engineering team.

COMMUNICATIONS SPECIALIST

Dulles, VA

As a Communications Specialist – Level 3 located in Dulles, VA, you'll be a linchpin in missions of paramount importance, defining the art of the possible from day one. The preferred location for this role is Dulles, VA. May consider one of the following major Space sector locations: McLean, VA; Chandler, AZ; or Gilbert, AZ.

NETWORK COMMUNICATIONS ADMINISTRATOR

Palmdale, CA

The Northrop Grumman Classified Solutions team is seeking a novice Network Administrator to join its dynamic team of technical professionals. The qualified applicant will become part of Northrop Grumman's Aeronautics Systems support team in Palmdale, California.

SUPPLY CHAIN SUBCONTRACT SPECIALIST

Los Angeles, CA

Sources and procures specialized goods and services. Owns contractual management for the supplier. Responsible for source selection from contract proposal to execution phases. Develops subcontract specifications, work statements, and terms and conditions for the procurement of specialized materials, equipment, and/or services. Prepares bid packages, conducts bidders' conferences, analyzes and evaluates proposals, negotiates subcontract provisions, selects or recommends subcontractors, writes awards, and administers resulting subcontracts. In conjunction with quality organization, evaluates and monitors supplier quality and reliability, as well as supplier ability to support required delivery schedules. Identifies strategies and opportunities to reduce cost, improve efficiency and manage risk through strategic and targeted negotiations.

HIRE HEROES USA DIRECT PLACEMENT ROLES

FIELD SERVICE TECHNICIAN

Willowbrook, IL

We are seeking a qualified Field Service Technician (FST) to assist in the assembly, deployment, testing, and maintenance of advanced security technology solutions. As a member of the technical staff, the FST will be responsible for assembling, implementing, and supporting a variety of proposed solutions, with the goal of ensuring successful implementation of projects. The FST will be expected to build technical knowledge, use and advance their technical skills on innovative technology, and achieve upward mobility in a hands-on environment. This position requires a self-starter to deliver the desired customer service experience. The ideal candidate is someone who demonstrates ambition, willingness to learn, and strong work ethics. A keen attention to detail and organizational skills are necessary to perform job duties.

BILINGUAL SAFETY MANAGER

Oklahoma City, OK

The Safety Manager works as a partner with all facets of operations to analyze the manufacturing process to proactively eliminate potential hazards. The Safety Manager will assist employees in identifying and correcting hazards, establishing best safe practices, and training/ coaching employees. This individual will be responsible for the daily safety and environmental requirements associated with production teams and will have the support of all team leaders.

LEAD MAINTENANCE MECHANIC

Nashville, TN

Our client is a dynamic and growing company uniquely positioned as both a manufacturer and wholesaler, and retailer, giving us a strategic advantage in the marketplace. With exciting growth initiatives ahead, we are building an exceptional team to drive our success. Our core values—care, commitment, and curiosity—guide everything we do. We are committed to fostering an inclusive and supportive workplace where all team members feel valued and respected.

FEATURED TRAINING PARTNERS

Ready to take the next step in your career?

Whether you're considering a new role, maintaining your current skills, or exploring professional development options, learning resources can play a helpful role in career preparation.

Robert Half, a proud corporate partner of Hire Heroes USA, is offering active members complimentary access to Percipio, an online learning platform, through Dec. 31, 2026. Percipio provides access to self-paced courses and learning materials across a variety of professional topics, allowing participants to explore content based on their individual interests and needs.

Availability is limited. If you're interested in accessing additional learning resources, you can register to receive access by submitting a Training Request through your [MyTrak portal](#). Choose On Demand Learning from the Requested Support picklist and enter "Robert Half Training Opportunity" in the Request Details box. Alternatively, you can ask your Transition Specialist to submit a request on your behalf.
